Share Option Grants

29 May 2018: Ncondezi Energy Limited ("Ncondezi" or the "Company") (AIM: NCCL) Ncondezi Energy announces that on 25 May 2018, as part of the Company's management incentive scheme, the Company granted share options in respect of 22,897,522 shares in the Company to its directors, executive senior management team and contracted personnel representing 8.2 per cent. of the issued share capital of the Company.

Following on from signing the Non-Binding Offer with potential strategic partners on 9 November 2017, the directors believe that the Company has a clear path to de-risking the 300MW integrated coal fired power project in Tete, Mozambique (the "Power Project"). The Company's Remuneration Committee has agreed to the granting of new options to further align the senior management team and contracted personnel with the Company's key deliverables over the next 12 to 18 months. These include the signing of binding documents with a new strategic partner, first draw down of capital into the Power Project from new strategic partner, restructuring or settling of the Company's shareholder loan, reaching an agreed form Power Purchase Agreement ("PPA") and Power Concession Agreement ("PCA"), and achieving Financial Close ("FC") for the Power Project.

In addition, a number of options have been granted in lieu of deferred remuneration to directors, senior management, ex-employees and consultants. The last options grant was made by the Company in January 2014.

Of the options granted, 61% are performance related and linked to delivery of specific milestones, 17% are in lieu of director remuneration and the balance of 22% is in lieu of deferred payments to senior management, ex-employees and consultants. In addition, 5,100,000 of the options will be satisfied through the Employee Benefit Trust, and are non-dilutive to existing shareholders.

New Share Options Granted

Of the total 22,897,522 options granted, 13,953,895 options (representing 61% of the total) have been granted to senior management and contracted personnel and will vest subject to achieving specific milestones. These are outlined in more detail below:

- 2,790,779 options vest on the execution of binding documentation with a new strategic partner, and are exercisable at a price of 6.25 pence per share (equivalent to the Company's last placing price);
- 2,790,779 options vest on the first draw down of capital from a new strategic partner into the Ncondezi Power Project and are exercisable at a price of 7.5 pence per share;

4,000,000 options have been awarded to the Company's Non-Executive Directors in recognition of the work

performed over the last 2 years without remuneration. The options vest on the date of grant with an exercise price of 6.25 pence per share (equivalent to the Company's last placing price). Non-Executive Chairman, Michael Haworth has waived his right to receive any options.

In lieu of annual bonuses over that period, Non-Executive Directors, Christiaan Schutte and Estevao Pale have been awarded 1,568,627 and 300,000 options respectively. These options vest on the date of grant with a zero strike price.

A further 1,625,000 options have been issued which vest immediately and are exercisable at a price of 8.625 pence per share and 1,450,000 options have been issued which vest immediately and have been awarded at a zero exercise price. These have been awarded to management and recently retired employees in lieu of payments over the last 18 months.

1,625,000 existing vested options with a strike price of 17.25 pence per share have been cancelled and a further 750,000 vested options with a strike price of 6.25 pence per share have also been cancelled.

The new share options represent 8.2% of the Company's current issued share capital, with milestone based options representing 5.0% of the Company's current issued share capital.
